

Prolistem for women, the natural and safe way to improve fertility

- Optimizes fertility safely & naturally
- Supports overall reproductive wellness
- Help in the lead up to IVF

INGREDIENTS WE USED:

Licorice:

licorice has an anti-testosterone activity that may be beneficial in treating women with PCOS, licorice could decrease ovarian cyst and improve the fertilization rate of oocyte and embryo development. data show an improvement of PCOS symptoms such as imbalance in the hormonal levels and irregular ovarian follicles.

Red Clover Flower:

Red clover contains plant-based estrogens known as phytoestrogens. These phytoestrogens can behave similarly to natural estrogens.

ChasteTree Fruit:

One of the most popular and well-researched attributes of Chaste Tree is its ability to reduce symptoms of premenstrual syndrome.

Black Cohosh:

Induces the hypothalamus to reduce the release of gonadotropin-releasing hormone (GnRH). A reduction in LH in women with PCOS is associated with better ovulation and implantation rates.

Maca (Lepidium meyenii):

Impact of hormones levels specifically Luteinizing Hormone (LH) concentrations and improves female menopause, reproduction, and hormone balance.

Tribulus:

Improve Female Fertility and Ovulation Stimulation.

Falxseed:

A powerful antioxidants protecting against DNA damage and essential for preserving egg quality.

Vitamin B12, folate, Zinc, copper:

Support a healthy immune system while you are trying to conceive and support reproductive health.

Vitamin A (beta-carotene), vitamin E and vitamin C:

Vitamins known as antioxidants that support egg health by minimizing the impact of free radical damage to your eggs.
