

# Prolistem®

For Oligospermia

Prolistem® for Oligospermia is the only supplement on the market that is designed based on real research and knowledge not by a hunch

## INGREDIENTS WE USE

### Group 1 - The Vitamin A Effect

Vitamin A RA acts on both Sertoli cells and germ cells and pushes undifferentiated spermatogonia into the differentiation pathway and, eventually, meiotic prophase.

### Group 2 - Sperm Concentration & Motility

Vitamin C, Vitamin E, Vitamin D, Zinc, Thiamin, Maca, Tribulus Terrestris, Horny Goat Weed and Mucuna Pruriens these powerful ingredients improves the stress induced reproductive infertility due to both their testosterone increase effect and their antioxidant effect.

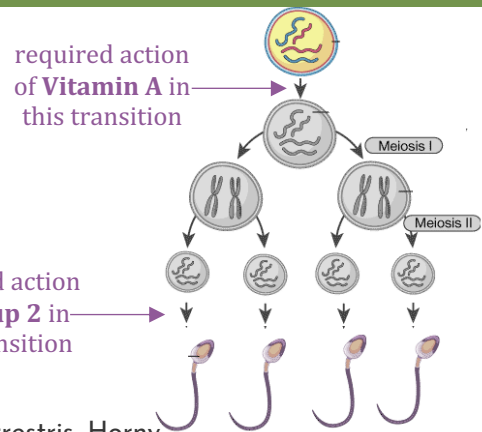

### Group 3 - Sperm Morphology

Vitamin B12, Vitamin B6, Vitamin D, Zinc, Red Korean Panax and Pomegranate these ingredients improved sperm viability and morphology can promote the concentration of antioxidants, catalase and peroxidase, which is the important factor in spermatogenesis.

### Group 4 - DNA Damage

Folic Acid, Promegranate, Damiana Leaf and Grape Seed reduced DNA fragmentation in normal human spermatozoa

**“Men with unhealthy sperm production can use our three months course to solve the infertility problem naturally. All ingredients are clinically approved to improve men’s fertility”**
